

## HARBOUR DUO – 2 IN 1 LUMINAIRE

The ROBUS **HARBOUR Duo** range is the latest addition to our IP65 corrosion-proof batten range. Available in a range of lengths (2ft – 6ft), these 80mm width fittings have a wattage selectable switch allowing you to choose between a single or a twin lumen output for increased versatility and functionality. Increased energy savings are achievable with a high efficacy of 118-136lm/w.

With its two-part construction of a fixed gear tray and hinged opal polycarbonate diffuser, and with push terminals expect a speedy and seamless installation without risk of missing parts. Finally, with plug-in emergency packs available for a quick and tool-free assembly, this range of battens is the ultimate practical solution.

### KEY FEATURES

- Suitable for workshops, garages, warehouses, car parks, farm buildings, wet areas
- One fitting can be used as either a single or double lumen output
- Flexible so will not crack when mounted on uneven surfaces
- Provides excellent light uniformity with less glare
- Less susceptible to failure due to building vibration caused by traffic or hot/cold temperature variations
- Provides ingress protection against dust and water jets
- Wide operating ambient temperature range of -25°C to 40°C
- Complete with stainless steel clips
- Plug in emergency pack and plug-in MW sensor available
- Using a ROBUS slim line driver for maximum efficiency whilst allowing a wire through solution.
